

# What Is Executive Dialogue?

Baltimore County Chamber of Commerce's Executive Dialogue is an exciting opportunity for business owners, CEOs, CFOs and COOs.

These member-only groups meet once a month to focus on a business problem or challenge presented by one of the members. The group — comprised of non-competing businesses — functions as an outside board of directors, giving confidential input on ways to approach the issue and working to solve the problem. Topics have included structuring business agreements, marketing, grant writing, business expansion, tax problems, new product development, creating a business model and much more.

If you are interested in participating in this dynamic group, please call Christine Crawford at 410-825-0036.
